Technology Acceptable Use Policy (Student/Parent)

Introduction

Lake Country Christian School recognizes that access to technology in school gives students greater opportunities to learn, engage, communicate, and develop skills that will prepare them for work, life, and citizenship. We are committed to educating, encouraging and equipping them in 21st Century technology. To that end, we provide access to technologies for student, faculty, staff, and administration to use.

This Acceptable Use Policy outlines the guidelines and behaviors that students are expected to follow when using computers, iPads, or other devices on the LCCS campus.

- The Lake Country Christian School wireless network is intended for educational purposes.
- All activity over the network or using school technologies will be monitored and retained.
- Access to online content via the network is restricted in accordance with our policies and federal regulations, such as the Children’s Internet Protection Act (CIPA).
- Students are expected to follow the same rules for good behavior and respectful conduct online as offline.
- Misuse of school resources can result in disciplinary action.
- Lake Country Christian School makes a reasonable effort to ensure students’ safety and security online, but will not be held accountable for any harm or damages that result from use of school technologies.
- Students of the LCCS network or other technologies are expected to alert school faculty/administration immediately of any concerns for safety or security.

Using your iPad at School

iPads are intended for use at school each day. In addition to teacher expectations for iPad use, school messages, announcements, planners, calendars and schedules may be accessed using the iPad. If a student is having difficulty maintaining appropriate use of the iPad, (failing to bring the iPad to school or failing to maintain a fully charged battery) a conference with parents may be required. Students may also lose points or have other penalties assessed should they fail to follow their teachers’ requirements.

Hot Spots and 3G

Students are not permitted to connect to the internet using a detected hot spot or cellular account while at school. We will be able to detect this on our network. Students will be shown how to access the LCCS wifi, and they are required to remain on the LCCS wifi during school hours.

iPads Left at Home or Brought to School with an Inadequately Charged Battery

Since the iPad is integral to the learning process for the upcoming school year, students who leave their iPad at home, or fail to charge the iPad battery, remain responsible for completing course work as if they had their iPad with them. Students are subject to whatever penalties individual teachers assess should they fail to follow their teachers’ requirements.
Charging your iPad’s Battery

iPads must be brought to school each day in a fully charged condition. Students need to charge their iPads each evening. Keep in mind that this process can take up to 5 hours to fully charge the iPad depending on the percentage of battery life remaining.

Non-Functioning iPads

Should an iPad become non-functioning, IT staff will attempt only basic trouble-shooting procedures to correct the problem. If these attempts prove unsuccessful, the student’s parents are responsible for repairing the iPad or taking it somewhere to be repaired.

Passwords

Students are required to set a password for their student-owned iPads and are prohibited from sharing their password with others.

Screensavers/Background photos

Students are to choose wallpapers for their iPad which are consistent with their commitment to love God and love others.

Photos/Videos

All technologies provided by or used at Lake Country Christian School are intended for education purposes. Students are expected to follow the Biblical mandate to honor the Lord Jesus Christ in all that they do. Therefore, we expect students to: use technology in a way that is safe, appropriate, careful and kind; make no attempt to get around technological protection measures; use good common sense; and ask questions if they need clarification of any possible areas of potential concern.

Students are NOT PERMITTED to take pictures or videos in class, locker rooms, hallways, restrooms, etc. without teacher permission. Disciplinary action will result if students choose to ignore this rule.

Sound/Music/Recording

On all iPads, sound will be muted at all times, unless permission is obtained from the teacher for instructional purposes.

Appropriate music may be used in class at the discretion of the teacher (i.e. reading time or homework time during class). All musical lyrics should be appropriate and positive. Teachers have the right to listen to determine if music is appropriate. Headphones will not be used during a test.

Gaming

Students are NOT PERMITTED to use gaming apps or websites during school hours unless teachers have given the student permission to access a particular game.
Printing

Students are required to print materials at home. Printing from iPads is not available on campus at this time.

Saving Work

It is the student’s responsibility to ensure that work is not lost due to mechanical failure, failure to back-up files or accidental deletion. iPad malfunctions are not an acceptable excuse for not submitting work; therefore, students will back up all work. Teachers will provide students with information on creating a Dropbox account that will allow students a cloud storage system for files. Students can also email themselves documents to ensure that a particular document is saved in case of iPad malfunction.

Network Connectivity

LCCS makes no guarantee that the school wireless network will be up and running 100% of the time.

Downloading Apps

Teachers may require students to download apps or iBooks that have application to their specific course content. Teachers will email parents and/or discuss with students the required app/iBook. Middle School parents will be given notice so they can help their student download the app/iBook. Parents may be comfortable with students downloading their own apps/iBooks.

Inspection

Students will be selected at random intervals to provide their iPad for inspection. Teachers reserve the right to ask students to close particular apps or internet sessions. Disciplinary repercussions for violations of this Acceptable Use Policy are noted at the end of the document.

Web Access

Lake Country Christian School provides students with access to the Internet, including web sites, resources, content, and online tools. That access will be restricted in compliance with CIPA regulations and school policies. Web browsing will be monitored and web activity records will be retained indefinitely.

Students will understand and respect that the web filter (UnTangle) is in place as a safety precaution, and will not try to circumvent it when browsing the Web. If a site is blocked and a student believes it shouldn’t be, the student will follow LCCS protocol to alert a school faculty/administration. Parents are encouraged to use the iPad Settings function to limit or disable specific use of their student’s iPad.

Email

Lake Country Christian School will provide students with an email account for the purpose of school-related communication. Availability and use will be restricted based on school policies.
Email accounts must be used with care. Students should be extremely cautious when transmitting requests for personal information, or opening files or following links from an unknown origin. Students should always use appropriate language when sending an email, and should only communicate with people as allowed by LCCS policy or their classroom teacher.

Students are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as they do offline. Email usage will be monitored and archived.

Open-Source Learning Management System

Recognizing the benefits collaboration brings to education, Lake Country Christian School may provide students with access to web sites or tools that allow communication, collaboration, sharing, and messaging among students (eBackpack and Blackboard).

Students are expected to communicate with the same appropriate, safe, mindful, courteous conduct online as they do offline. Posts, chats, sharing, and messaging will be monitored. Students will exercise caution and wisdom in NOT sharing personally-identifying information online.

Security

Students are expected to take reasonable safeguards against the transmission of security threats over the school network. This includes not opening or distributing infected files or programs and not opening files or programs of unknown or untrusted origin.

If you believe a computer or mobile device you are using might be infected with a virus, alert the Technology Department immediately. Do not attempt to remove the virus yourself or download any programs to help remove the virus.

Netiquette

Students are expected to use the Internet, network resources, and online sites in a courteous and respectful manner. Students must also recognize that along with valuable content online there is also unverified, incorrect, or inappropriate content. Students will use trusted sources when conducting research via the Internet.

Students should also remember not to post anything online they wouldn’t want parents, teachers, or future colleges or employers to see. Once something is online, it’s out there – with the very real potential to be shared and spread in ways never intended or anticipated.

Plagiarism

Students will not plagiarize (or use as their own, without citing the original creator) content, including words or images, from the Internet. Students will not take credit for things they didn’t create themselves, nor will they misrepresent themselves as an author or creator of something found online. Research conducted via the Internet will be appropriately cited, with credit given to the original author.
Technology Acceptable Use Policy (Student/Parent)

Personal Safety

Students are strongly cautioned against sharing any personal information over the internet, including phone number, address, social security number, birthday, or financial information, without adult permission. Students should recognize that communicating over the Internet brings anonymity and associated risks, and should carefully safeguard their personal information, as well as that of others. Students should never agree to meet someone in person who they meet online, without parent or guardian permission.

If you see a message, comment, image, or anything else online that makes you concerned for your personal safety, bring it to the attention of an adult (teacher or staff if you’re at school; parent if you’re using the device at home) immediately.

Cyber-bullying

Cyber-bullying will not be tolerated. Harassing, dissing, denigrating, impersonating, pranking, excluding, and cyber-stalking are all examples of cyber-bullying. Don’t be mean. Don’t send emails or post comments with the intent of scaring, hurting, or intimidating someone else.

Engaging in these behaviors, or any online activities intended to harm (physically or emotionally) another person, will result in immediate disciplinary consequences, and loss of iPad/Computer privileges. In some cases, cyber-bullying is considered a crime. Remember: your online activities are monitored and retained.

Parent/Guardian Responsibilities

Talk to your student about values and standards your student should follow when using the Internet just as you would on the use of all media information sources such as television, cell phones, videos, movies and music.

EXAMPLES OF ACCEPTABLE USE

Students will:

- Never leave iPads unattended and will know where their iPad is at all times. Some form of permanent name identification will be placed on the iPad itself to help with iPad recovery, should it become lost or misplaced. Students will also provide a case for their iPad, with name identification on the iPad case also
- Use school technologies ONLY for school-related activities
- Follow the same guidelines for respectful, responsible behavior online that they are expected to follow offline
- Treat school resources carefully, and alert staff if there is any problem with their operation
- Encourage positive, constructive discussion if allowed to use communicative or collaborative technologies
- Alert a teacher or other staff member if they see threatening, inappropriate, or harmful content (images, messages, posts) online
- Use school technologies at appropriate times, in approved places, for educational pursuits
Technology Acceptable Use Policy (Student/Parent)

- Give appropriate source credit when using online sites and resources for research
- Recognize that use of school technologies is a privilege and treat it as such
- Be cautious to protect their own safety and the safety of others
- Help to protect the security of school resources
- NOT borrow an iPad from another student or loan their iPad to another student
- NOT remove a borrowed/school-owned iPad from the secondary school building

This is not an exhaustive list. Students should use their own good judgment when using technologies in school. LCCS staff reserves the right to change the content of the above list at any time.

EXAMPLES OF UNACCEPTABLE USE

- Spamming-Sending mass or inappropriate emails
- Gaining access to other student’s accounts, files, and/or data
- Use of the school’s internet/E-mail accounts for financial/commercial gain
- Participation in credit card fraud, electronic forgery or any other form of illegal behavior
- Vandalism (any malicious attempt to harm or destroy hardware, software or data, including, but not limited to, the uploading or creation of computer viruses or computer programs that can infiltrate computer systems and/or damage software components) of school equipment
- Transmission or accessing materials that are obscene, offensive, threatening or otherwise intended to harass or demean recipients
- Bypassing the LCCS web filter through a web proxy, 3G or Hotspot
- Using another student’s iPad
- Listening to music with inappropriate lyrics
- Illegal installation or transmission of copyrighted materials
- Any action that violates existing LCCS policy or public law
- Sending, accessing, uploading, downloading, or distributing offensive, profane, threatening, pornographic, obscene, or sexually explicit materials
- Use of chat rooms, sites selling term papers, book reports and other forms of student work
- Gaming during class
- Messaging during class
- Attempting to find inappropriate images or content
- Engaging in cyber-bullying, harassment, sending sexually explicit photos, or disrespectful conduct toward others
- Trying to find ways to circumvent the school’s safety measures and filtering tools
- Agreeing to a personal meeting with someone who was introduced to them online
- Using school technologies for illegal activities or to pursue information on such activities
- Attempting to hack or access sites, servers, or content that is not intended for student use

This is not an exhaustive list. Students should use their own good judgment when using technologies in school. LCCS staff reserves the right to change the content of the above list at any time.

Limitation of Liability

Lake Country Christian School will not be responsible for damage, harm or theft to student-owned iPads. While Lake Country Christian School employs filtering and other safety and security mechanisms, and attempts to ensure their proper function, it makes no guarantees as to their effectiveness.
Lake Country Christian School will not be responsible, financially or otherwise, for unauthorized transactions conducted over the school network.

LCCS RESERVES THE RIGHT TO REVISE, ADD, DELETE AND EXTEND ANY OF THE POLICIES AND PROCEDURES PERTAINING TO THE IPAD AND ITS USE AT ANY TIME. STUDENTS AND THEIR PARENTS WILL BE NOTIFIED OF ANY OF THESE CHANGES BY EMAIL.

Social Media

Lake Country Christian School recognizes that the ever changing social media tools available today bring the potential for expressed thoughts to reach audiences far beyond the classroom or school community. While we respect the right of students, employees, alumni and other community members to engage in the many social media options available today, our standards for appropriate online communication reflect our commitment to educating, encouraging and equipping Christian leaders to fulfill their God-given purpose and impact their culture.

Standards of behavior, responsibility and accountability we expect from our students, parents and faculty at all times:

- We welcome participation and comments on all of our LCCS sponsored sites, including social media, blogs, forums, etc. We encourage positive, constructive discussion and insight. We realize differing opinions might spark debate on some topics. We request participants remain courteous and respectful of others, and avoid comments that are profane, obscene, inappropriate, threatening, or otherwise objectionable.
- Your submission of content in any form to an LCCS sponsored site will be publicly accessible.
- LCCS reserves the right to review all comments before they are posted, and to edit them to preserve readability for other users. LCCS may also reject or remove content in any form for any reason.

Use of Social Media:

- Be cautious and aware of what you post online or send in private messages. Social media venues including social networking, wikis, blogs, photo and video sharing sites are very public. What you contribute leaves a digital footprint for all to see. Do not post anything you wouldn't want friends, students, parents, teachers, or an employer to see.
- Remember that your interactions reflect not only on you, but on the Lake Country Christian School community. For that reason, posts on social media venues should follow the guidelines outlined in the Technology Acceptable Use Policy and the LCCS Honor Code found in the LCCS Student Handbook. What is inappropriate in the classroom is inappropriate online.
- Material posted to websites, forums, or other forms of social media, must not be defamatory toward LCCS or those in the LCCS community.
- Inappropriate speech in social media posts includes derogatory comments to/about competing schools or their students, i.e. opponents in academic, athletics, or fine arts contests.
- Be mindful when retweeting/reposting content to check not only the post, but also the source of the information you are sharing to determine appropriateness, e.g., a cute or funny meme may be from a source with a derogatory or profane name. Once you retweet/repost, the objectionable content is on your page.
- For any reason, social media posts or otherwise, students are NOT PERMITTED to take pictures or videos in class, locker rooms, hallways, restrooms, etc., without teacher permission.
Technology Acceptable Use Policy (Student/Parent)

- How you represent yourself online is an extension of yourself. Do not misrepresent yourself by using someone else's identity.
- Be safe online. Never give out personal information and do not share your password.
- Alert a parent, teacher, or other staff member if you run across inappropriate or threatening material.

VIOLATIONS OF ACCEPTABLE USE POLICY

Violations of this *Acceptable Use Policy* may have disciplinary repercussions, including but not limited to:

- Teacher/Dean of Student disciplinary counseling and/or consequences
- Suspension of network, technology, iPad or computer privileges
- Notification of parents
- Conference with parents
- Detention or suspension from school and school-related activities
- Legal action and/or prosecution
