

Eagle  
DNA  
Scholarship

The Eagle DNA Scholarship is provided by a private donor who overcame obstacles through exercising faith, diligence, determination and a Christ-like attitude to achieve God's plan for their life. This extraordinary individual overcame obstacles in high school which forced the donor to live alone for both Junior and Senior years of school while focusing on education. Academically this person completed high school by finishing within the top 10 of a class of over 500 students. The teachers of the donor's high school - who witnessed the dedication - raised and awarded the donor as the recipient of a newly created scholarship for the donor's freshman year of college. This individual utilized this support to graduated Magna Cum Laude with a Bachelors Degree of Engineering. The donor's family now wants to bless another high school student in the way they were blessed through a newly created Eagle DNA Scholarship.

All LCCS seniors will be considered for the Eagle DNA Scholarship with the recipient determined by a committee of current LCCS teachers. The \$1,000 Eagle DNA Scholarship will be awarded to the recipient in his/her 2nd semester of college.
